PECS™ Training Manual

The Picture Exchange Communication System Training Manual, 2nd Edition

by Lori Frost, M.S., CCC-SLP and Andy Bondy, Ph.D., 2002, 396 pages

The 2nd Edition of this very popular training manual provides comprehensive instruction in implementing the Picture Exchange Communication System™. Developed by Lori Frost and Andy Bondy, the goal of PECS is to provide individuals with an effective and functional method of communication. The training manual begins with a description of the Pyramid Approach to Education™, which is the foundation for creating all PECS lessons. A detailed chapter on functional communication follows. Each of the 6 training phases is described according to rationale, training steps, frequently asked questions, helpful hints and sample data sheets. Extensive appendices provide evaluation forms, data sheets, reinforcer worksheets, and communication programming worksheets that may be reproduced. The PECS Training Manual has over 300,000 copies in print and is available in 11 languages. Contact us at admin@pecsaustralia.com for information on availability in other languages.

Pics for PECS™ 2011©

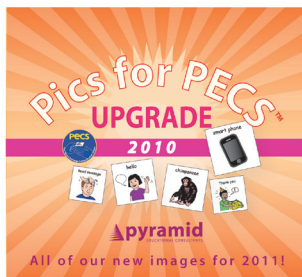

Our Pics for PECS™ images support both expressive and receptive AAC systems and are appropriate for all ages. In addition to making pictures for PECS Communication Books, Pics for PECS can be used to create printed communication boards, schedules, literacy activities, visual supports and overlays for speech generating devices. The high resolution jpg images can be enlarged to a full page with no loss of clarity and can be used in any software that supports jpg images. In our 2011 collection, we continue to expand the range of our global pictures, so in the over 200 new images, you'll find 'espresso', 'espresso cup' and 'wasabi'. We also added pictures for your calendars and more images for health related activities. Included on the CD are directions for use and a complete picture dictionary of all the images. Please email admin@pecsaustralia.com for availability in Spanish, French, Italian, German and Japanese. This CD is intended for Windows XP or higher and Mac OS 10.5 (Leopard) or higher.

Universal NO Symbols

How to say "NO!" and live to tell about it. One powerful visual strategy is the Universal 'NO' Symbol. These clear plastic symbols come in two sizes (2.5cm and 4.5cm) and stick to your laminated symbols to signal that the item/activity is currently not available. The learner can see the original picture through this symbol. Remove the symbol once the item/activity is available. Re-use them as often as you need. This set includes 15 small (2.5cm) symbols and 15 medium (4.5cm) symbols.

PECS 151™ - Revised (Australian Edition)

PECS

This set of pictures is a collection of some of the most commonly used pictures for PECS. We compiled this list over several years by tracking the picture vocabulary development of hundreds of new PECS users. Our generic, nonspecific pictures are perfect for combining with attributes for precise requests or comments and include Sentence Starters™ and beginning attribute icons. To save you valuable time, our 2.5cm and 4.5cm colour pictures come printed on rigid paper and are laminated for added durability. VELCRO® Brand loop VELCOINS® are included to apply to the back of your pictures.

Autism 24/7

by Andy Bondy, Ph.D. and Lori Frost, M.S., CCC-SLP, 2009, 169 pages.

If your son or daughter is over-stimulated by noisy places or has trouble communicating or interacting with people, then everyday activities like going to the playground or helping out with household chores may seem outside your child's repertoire. Authors Bondy and Frost, the founders of the award-winning Pyramid Approach to educating individuals with autism, show how it is possible to keep family life running smoothly and teach an individual with autism to participate in important and routine family activities at home and in the neighbourhood. Their teaching strategies can be used during the course of everyday life without making too many adjustments or converting your home into a school. In a reassuring, easy-to-read style, *Autism 24/7* encourages parents to pinpoint times when their child's behaviour or lack of skills seems to interfere with family functioning. This step helps identify what to teach your child and what goals to set.

A Picture's Worth, 2nd Edition

by Andy Bondy, Ph.D., and Lori Frost, M.S., CCC-SLP, 2011, 160 pages, 21 photos.

A Picture's Worth, 2nd Edition, examines the value of nonverbal communication strategies for individuals with autism, and describes the Picture Exchange Communication System™ (PECS). Without the ability to express themselves, individuals with autism experience a high level of frustration, which is the root cause of many undesirable behaviours. The book explores the relationship between behaviour and communication, teaching parents how to recognise patterns in their child's behaviour and when to implement an augmentative and alternative communication (AAC) system such as PECS. This new edition cites research that proves PECS (and other AAC strategies) does not interfere with the development of speaking skills, and actually often provides a boost to speech acquisition. The book's complete set of introductory lessons makes it easy for parents and therapists to get started using this low-tech strategy to help anyone develop effective communication skills.

The Pyramid Approach to Education, 2nd Edition

by Andy Bondy, Ph.D., 2011, 310 pages.

The Pyramid Approach to Education, 2nd Edition, presents Andy Bondy's integrative approach to teaching individuals with a range of educational needs, within any learning environment. This updated edition of the book guides professionals and parents toward asking the right questions and designing constructive answers as they develop powerful home, school and community-based programs. Frustrated by marginal student learning? New answers can be found in this book. In a straightforward manner it recommends how and what to teach to maximise learning. The final chapter of the book provides detailed examples of this approach with a number of students in various settings. The new edition is an easy read for anyone, reflecting Andy Bondy's acumen and experience while making the content accessible to all.

Verbal Behavior

by B.F. Skinner, 1958, Soft Cover, 478 pages.

This book laid the foundation for the development of the PECS training protocol. The book presents a systematic functional analysis of language based on the principles of learning. Skinner proposes that verbal behaviour requires an analysis separate from other behaviour because it does not operate on the environment directly, but rather through other people in a verbal community. He describes several parts of communication defined by their relationship to specific antecedents and consequences, from the simplest features of language to its most complicated aspects. He also stresses that verbal behaviour is defined by its function, not by its form- thus, for example, PECS permits any user to engage in verbal behaviour. Read the chapter by Andy Bondy in the *PECS Training Manual, 2nd Edition*, (page 3) for a thorough discussion on PECS and *Verbal Behavior*.

Lesson Plans

Edited by Andy Bondy, Ph.D., with contributions by Kate Dickey, Sarah Buswell, and Beth Sulzer-Azaroff, Ph.D. 2002, 127 pages.

This manual is the perfect resource for any individual who instructs learners. It contains close to 100 ready-to-use lesson plans to teach learners skills in the following life areas: school-based, communication, self-help, social, domestic, recreation/leisure, and community-based skills. This manual also assists teachers in writing additional lesson plans within the Pyramid Approach to Education™ framework by providing detailed explanations and examples. Each lesson was developed by teachers and specialists experienced in teaching learners with special needs.
